EDUCATION

Bachelor of Technology in Computer Science Engineering

KSRM College of Engineering, Andhra Pradesh

Aug 2022 – Apr 2026

CGPA: 9.03 / 10

Intermediate (Mathematics, Physics, Chemistry)

Narayana Junior College, Andhra Pradesh

Jul 2020 – May 2022

Score: 81%

EXPERIENCE

Full Stack Intern | Leap Robots LLP

Hyderabad, Telangana

Jun 2026 – Present

- Migrating a production web application into a cross-platform **desktop application** using **Electron.js**, **Node.js**, and **JavaScript**, covering application development, packaging, and **functional testing**.
- Developing **backend** control logic in **Node.js** that communicates with **microcontrollers** and hardware components over **serial communication**, enabling users to operate connected devices directly from the desktop application.

Software Development Intern | DigiVal IT Solutions Private Limited

Chennai, Tamil Nadu

May 2026 – Jun 2026

- Built and maintained **MERN stack** application features using **React.js**, **Node.js**, **Express.js**, **MongoDB**, **JavaScript**, and **RESTful APIs**.
- Implemented backend modules in **Node.js** covering **asynchronous programming**, file system operations, multipart file uploads, and **image processing** workflows.
- Conducted **code reviews** and **debugging** across **testing** cycles, resolving defects to improve **code quality**, application stability, and maintainability.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Python, SQL.

Frontend Development: HTML5, CSS3, React.js, React Hooks, Context API, Tailwind CSS, Axios.

Backend and APIs: Node.js, Express.js, FastAPI, RESTful APIs, JWT, OAuth 2.0, Electron.js.

AI and Data: Retrieval-Augmented Generation (RAG), LangChain, ChromaDB, Prompt Engineering.

Databases and Tools: MongoDB, PostgreSQL, SQLAlchemy, Docker, Git, GitHub, Postman, npm, Vercel.

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming (OOP), Operating Systems, Database Management Systems (DBMS), Computer Networks, Software Engineering, SDLC.

PROJECTS

CareerSetu – AI-Powered Career Intelligence Platform | Source Code | Live

Aug 2026

Tech Stack: Python, FastAPI, React.js, TypeScript, PostgreSQL, ChromaDB, JWT, OAuth 2.0.

- Built an **AI-powered** career intelligence platform with a **FastAPI (Python)** backend and a **React.js** and **TypeScript** frontend, delivering resume-to-job analysis with a deterministic **ATS match score** plus **AI-generated**, ATS-optimized resumes and cover letters.
- Engineered a **Retrieval-Augmented Generation** pipeline using **ChromaDB** and **LLM integration** to power grounded career chat and an adaptive interview-preparation module with automated answer evaluation.
- Implemented secure **RESTful APIs** with **JWT** and **Google OAuth 2.0** authentication, backed by **SQLAlchemy** and **PostgreSQL** for data persistence and deployed on **Vercel** serverless infrastructure.

Digital ID Card Management Platform | Source Code | Live

Jun 2026

Tech Stack: React.js, Node.js, Express.js, MongoDB, Mongoose, Multer, Google Drive API.

- Engineered a **MERN stack** ID card management platform with **admin authentication**, template **CRUD operations**, dynamic forms, live card previews, **QR code generation**, and PNG and PDF export.
- Optimized **REST API** and database payloads by integrating the **Google Drive API** for image storage and persisting only file URLs in **MongoDB** instead of Base64-encoded data.
- Automated ID card creation using a **Google Apps Script** form-submit trigger and an **Express.js webhook** that transforms **Google Form** responses into cards ready for preview and download.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate | Oracle
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional | Oracle
- Certified System Administrator | ServiceNow
